

Trefoil Adventure

168 Rose Rd.

Trefoil Adventure Center is located northeast of Watertown, NY, on the outskirts of the gorgeous Adirondack Park. It is one of our woodsier properties. Complete with private Snyder Lake, Trefoil is the center for our council's best adventure activities. In addition to an open archery range, frisbee golf course, and waterfront for boating, swimming or fishing, Trefoil is home to the council's only adventure ropes course. Four A-frame units with canvas tent entryways, a canvas Yurt and two buildings are available for troops to rent for their stay up north. Each A-frame has its own latrine and hand wash station and is available year-round; they do not have heat or water in winter. **For questions or help with a reservation, contact us at 1.800.943.4414 or reservations@gsnypenn.org.**

Seasonal Rentals ❄️

We know that Girl Scouts love to camp year-round, but unfortunately some features and pipes on the property are not available during cold weather months. Please carefully read descriptions marked with a snowflake to see how they are affected by winter availability.

Winter Availability

October 15—May 1

Build-

The Lodge

Capacity: 12 overnight, 80 day **Cost:** \$120/night

The Lodge is the main building at Trefoil. Used as a dining hall during the summer camp season, it has a large kitchen and even larger dining area with an indoor circular fireplace and sturdy wooden tables. Behind the Lodge is a fire pit, picnic tables, and a compost bin—which troops are encouraged to add their scraps to. There is a flush toilet, running water, electricity and heat—making it a perfect building to rent for winter camping. Renovations in 2019 gave the Lodge a new sleeping area just off of the main dining room.

Nature Center

Capacity: 30 overnight **Cost:** \$75/night,

The Nature Center is the other heated, year-round building at Trefoil. A spacious one-room building with a fireplace, bookcase and carpet, it feels more like being at home than at camp. Adjacent to the Nature Center is the property Shower House, Soap Shed, with flushing toilets and showers available to use outside Winter Availability and a nearby latrine available for year-round use. There is no running water in the Nature Center, but there is a refrigerator and microwave for quick meals.

Yurt ❄️

Capacity: 20 **Cost:** \$75/night

In addition to being a fun word to say, the Yurt is a fun place to stay at Trefoil! The circular set up encourages that close bond developed during a camping trip. The Yurt has beds, bunk beds and a table inside. Outside there is a picnic table and fire pit. Behind the Yurt is a narrow path to a beautiful lookout point of Snyder Lake. Unavailable during Winter Availability.

A-Frame

Beaver Bend ❄️

Capacity: 24 Cost: \$55/night

Six wooden A-frame units with canvas entry ways, each holding four cots with mattresses and one unit with electricity, make up this beautiful unit in the woods. A spacious circle between the units has a pavilion with picnic tables and fire pit for cooking and activities. A latrine and wash station are also nearby for use. No heat or water during

Chipmunk Hollow ❄️

Capacity: 24 Cost: \$55/night

Chipmunk is the coziest of our cabin circles. These six units, each with four cots within them, are closer together than the others. You will feel like you are in your own camp property when nestled around the fire circle (despite being the closest unit to the Nature Center and Lodge). No heat or water during Winter Availability.

Tamarack Rise ❄️

Capacity: 20 Cost: \$55/night

Tamarack's five units sit widely around a pavilion and fire circle. One cabin has electrical outlets and another is handicapped accessible. With enough room between units to run around, it's a great space to rent for activities and games. Tamarack is also closest to the ropes course. No heat or water during Winter Availability.

Staff Row ❄️

Capacity: 16 Cost: \$55/night

Staff Row's four A-frame units are the only ones with electrical outlets in each and with all hard sides. The unit is centrally located and a short walk to the waterfront, archery range and ropes course. It also has a fire pit, water spigot and picnic table. No heat or water during Winter Availability.

Activities and

Waterfront

A tree-covered path located by Staff Row opens to Trefoil's waterfront where you can swim, boat, fish and lounge on amphitheater seating. Fishing poles, life jackets and boats are in the Boat House, which will be unlocked during your rental time. The Boat House also has changing areas, as well as a compost toilet. Fishing is allowed off of the shoreline to the right or left of the docks, but not in the swim area. A lifeguard is required when swimming or boating, and a small craft certified boating instructor is needed to use the boats.

Waterfront unavailable: September 21—May 22

Archery

To access the archery range, head to the main road and carefully cross the street to the trail across the road. Follow the Oreo Trail to the range and the frisbee golf course for girls to use while waiting to test their bow skills. An archery facilitator is required to use the area and we ask that you clean up the range when finished.

Archery unavailable: November 2—May 1

Equipment Rental

If you have rented any of our outdoor cooking equipment, you can find those in the Lodge at the center of the property. Snowshoes and skis are in the North Pole Shed behind the Lodge, along with other sports equipment.

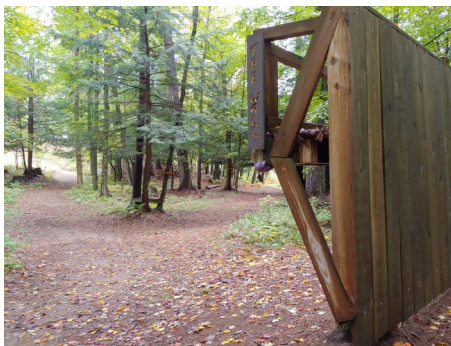

GaGa Ball

There is one GaGa Ball pit at Trefoil for everyone to enjoy, so please be mindful of other campers and remember to share with your fellow Girl Scouts!

Ropes

The best way for girls to try out the Ropes Course is to attend summer camp, but we also offer Ropes Course programs throughout the year. If troops would like to make a private reservation for the course, this can be accommodated on a case by case basis depending on availability. Any interested parties should contact the Outdoor Program Manager for Trefoil, Beth Jennings at bjennings@gsnypenn.org or 315.782.1890 x2216.

Low Ropes Course Elements:

- The Teepee Shuffle - all levels
